SEAT FITTING INSTRUCTIONS AND RECOMMENDATIONS

INSTALLATION

Racepro Marketing Ltd recommends that Racepro race seats be installed/fitted by a professional in a tradesman like manner.

Seats must be secured to factory seat runners or factory seat mounts in the vehicle floor.

Racepro Marketing Ltd recommends that Racepro race seats be fitted to double locking mechanism runners.

Seats must be attached by a 1 x 8mm bolt per corner of seat base in threaded mounts supplied, four (4) in total.

MOUNTING BRACKETS

Racepro Marketing Ltd recommends the use of Racepro side mount brackets, part numbers RAC-BKT-M1 or RAC-BKT-M2 when fitting Racepro seats to your vehicle.

SAFETY REGULATIONS

Your Racepro seat has a date of manufacture marking on the base, DO NOT REMOVE. This marking identifies that this seat fits within the current traffic safety regulations.

RACEPRO MARKETING LTD RACE SEAT & FABRIC

Racepro Marketing Ltd has designed Racepro seats for racecar use. There has been however an increasing demand for Racepro Marketing Ltd race seats in the every day road vehicles. The fabric used is lightweight, intended for racing purposes. Race seats will wear if not looked after. Racepro Marketing Ltd does not accept liability of fabric wear and tear in the normal course of seats life. It is the responsibility of the owner to ensure it is maintained.

CLEANING

To clean your Racepro seat, Racepro Marketing Ltd recommend a velour upholstery cleaner, or similar product recommended by a professional, DO NOT USE BLEACH.
